Our Brussels office covers all areas of business law and brings together more than 40 lawyers from 9 different countries.

Our Regulatory & Administrative Group boasts some of the world's leading regulatory lawyers, many of whom have long-standing relationships with European and national regulators and a superb network in political, economic and management circles.

We provide interdisciplinary advice to public sector entities as well as national and international companies in the areas of security and defence, IT and communications, life sciences, healthcare, finance, energy, public transport, railway and construction.

Our expertise and advice follows a life cycle approach covering all stages of a public or private project, including contract and licensing issues, business strategy in the light of regulatory requirements and approaches of regulatory authorities, both at EU level and at national levels across Europe and Asia.

We also represent clients as defendants, complainants or interveners in regulatory and competition investigations by EU and national authorities. In the course of a public project, we will be active in the management of disputes through court proceedings (appeal procedures, actions) and non-judicial dispute resolutions (arbitration, mediation).

We work with our clients to develop strategies for resolving regulatory changes, manage your relationships with regulators and, where possible, help you to achieve regulatory clarification from national, regional or local governments.
